1. Several of us have met with the Senior Review Panel (SRP)--
[REDACTED]
[REDACTED] for about two years, the SRP has been providing
the Director, NFAC (plus, at times, the DDCI and DCI), with brief
evaluative and/or prescriptive comments on major areas of Agency
analysis and production--including, but not limited to--National
Intelligence Estimates.

2. Through the appropriate channel, we would like to request
a list/catalog of the titles of all of these SRP submissions.

3. At this stage, we are not asking for any of the submissions
themselves. After reviewing the list of titles--which will give us
a better understanding of the range of SRP interests and responsibilities--
we will want to submit a request for a manageable sample of SRP comments,
a sample we will select (then request) from the title list.
